specialized COVID considerations

We are pleased to be a part of your family's safety plan that will minimize exposure of your children to the COVID virus.

- communal exposure is limited to the few students enrolled in the learning center.
- This is a safe, controlled transition from family quarantine to educational setting.
- students will remain in one area throughout the day.
- time will be allotted for safe transitioning from in and out of the building.
- homework will only be required if the student does not complete their assigned daily work.
- No staggered attendance schedule to keep track of. The learning center will be open to all enrolled children M-F from 7:30am - 3:30pm.
- Family schedules that work best for an 8:00 drop off is fine.
- Your child will be marked tardy if not in attendance by 8:01am.
- Family schedules that work best for pick up between noon and 2:30 is fine.
- Your child will be marked present for a full day on any day that they attend a minimum of 4 hours.

In the event of a COVID diagnosis of a student or staff person at the learning center

- * All families will be promptly informed of every risk of exposure about which the staff becomes aware.
- The learning center will remain open for those who feel safe to attend
- Student work can remain on schedule in the home and accommodations for private appointments to score and test will be available upon request.

As our community continues to re-open, and parents return to work, the learning center @ LifeSpring is a reflection of the ongoing commitment that Maximum Child has to the well being of the families who trust us with the care and education of their children.
